# HOLA!

*Thank you for taking a moment  
to review this simple guide.*

*It is very important for us  
to make you aware of the  
new procedures and protocols  
we have implemented to  
protect our staff and our  
beloved guests.*

*Although we are blessed with  
a secluded location on 50 acres,  
with vast open-air spaces  
and only 45 suites and 3 villas,  
we have taken the necessary  
extra care to ensure you have  
a memorable holiday whilst  
being safe.*

***We are looking forward to  
welcoming you soon!***

+ Hotel Esencia is proud to announce that it was among the first hotels in the world to become *Sharecare Health Security VERIFIED<sup>®</sup> with Forbes Travel Guide*, based on compliance with expert-validated best practices that minimize the risk and impact of COVID-19 and potential future public health events.

**VERIFIED<sup>™</sup>**

with **Forbes** TRAVEL  
GUIDE

+ As some guests may wish to have a Covid test during their stay or may be required to have a negative test upon returning home, Hotel Esencia has partnered with a private local medical lab to perform PCR and Antigen tests at the hotel for our guests comfort and safety. Results are provided within 24 hours or less as needed.

Please click [here](#) to get in touch with our guest service team to arrange a test during your stay.

+ There are no Covid tests required and no other travel restrictions upon arrival in Mexico. Masks are still required in Mexico's airports but they are not required of our guests on our property.

Our vaccinated staff members working outdoors are not required to wear masks, except upon request. All employees working inside our hotel suites, or inside our kitchens, gym or spa, are required to wear masks.

+ Ascertain the state of your health before any trip, and boost your immune system! Not only is this good for everyday life, but it can really reduce health risks when traveling.

+ Antibacterial 70% alcohol based gel is available throughout the property, and guests are provided with a complimentary kit of in-room sanitization essentials.

- + 100% of our staff is fully vaccinated and temperature-screened daily before entering the property, as well as following special hygiene protocols.**
- + Our restaurants and bars are all outdoors, well ventilated and spacious, nevertheless, tables have been arranged to ensure safe distance between guests.**
