Hotel Esencia presents the majestic 'Esencia Mansion', one of the most grand private villas in the Riviera Maya. This 10,000 sq ft., four-bedroom villa, with three swimming pools, just completed in 2022, was designed to be immersed in nature, with 360 degree rooftop ocean views, providing the ultimate in privacy and seclusion, yet less than a five minute walk to the beach, restaurants, spa, gym, and all hotel facilities. Our helicopter landing pad and private tennis court are just a few steps away.

The Esencia Mansion's four level layout features 4 bedrooms with spacious ensuite bathrooms, all of them offering separate entrances for maximum privacy, yet all of them connected from inside as well – an ideal layout for a family vacation or friends staying together.

The master suite on the entire third level is a true example of good living – the light-drenched bedroom connects to a grand master bathroom with shower room and oversize bath tub, double sinks, and indoor/outdoor plunge pool. An adjacent private fitness studio features state of the art equipment such as 'The Mirror' with virtual personal trainers, an elite 'Woodway' treadmill and award winning 'Pent Fitness' weights sets.

The grand master bedroom salon includes a private adjacent office and opens to a spectacular covered terrace with comfortable seating, a hammock for an afternoon siesta, and a direct view over the grand pool area below.

One more level up the towering rooftop terrace offers a glorious 360 degree view of the jungle tree tops and the sea, another large pool, a covered terrace perfect for entertaining up to 20 guests, and sun beds for 'top level' sun tanning sessions. Enjoy nature from up high, sunrise, sunset, and all those magical starry nights.

The three junior suites are delightful generous spaces with ensuite bathrooms and private outdoor terraces; two of these also include a studio lounge for reading or relaxing.

The Esencia Mansion offers a myriad of common spaces for enjoying in the utmost comfort and refined living. The luxurious eat-in kitchen – where a private chef or even our guests can create delightful meals – features state of the art appliances, and is perfect for pre-dinner entertaining and connects to a breakfast terrace with spectacular views of the jungle. It also features an adjacent hidden staff kitchen, stock room, and a wine fridge cellar.

The connecting main living room with its generous proportions is the heart of the villa, featuring a wet bar and an adjacent intimate lounge for relaxing or admiring nature through the oversize windows. This main salon opens to another lounge terrace with seating perfect for aperitivo drinks, and a spectacular dining terrace overlooking the large family pool.

The pool is one of its kind and a work of art in itself with its ceramic tiles designed by the artist Marcel Dzama. It is lined on one side by comfortable sun beds and umbrellas, and on the other by a thatched palapa for shaded lounging.

A private screening room with comfortable seating for 20 guests will surprise and delight even the most discerning traveler – featuring the latest in audiovisual technology and a bar; perfect for a cinema night with family and friends.

The Esencia Mansion is an extension of our vision of good living and laid back luxury, offering top class service and featuring our unique aesthetic philosophy, translated into entirely custom-designed spaces, furniture, artworks, and all of Hotel Esencia signature amenities.
